NEWSNAPS HOT FEATURES

SNAPSHOT PROPERTY MATCHERS

The screenshot shows a code editor window titled "kanye.one.spec.js — jest-sandbox". The editor contains the following JavaScript code:

```
1  const user = {
2    id: Math.floor(Math.random() * 100),
3    createdAt: new Date(),
4    name: "Kanye"
5  };
6
7  test("full user object", () => {
8    expect(user).toMatchSnapshot();
9  });
10
```

In the top right corner of the editor, the word "BEFORE" is written in red, next to some icons. The code is syntax-highlighted, and the line numbers 1 through 10 are visible on the left side.
